## Profile

Aspiring Data Analyst with a strong foundation in business, economics, and data visualisation. Proficient in Excel, Tableau, Vega-Lite, and R, with hands-on project experience in machine learning, exploratory data analysis, and dashboard design. Passionate about turning data into clear, actionable insights that support decision-making in innovative, people-focused environments.

## Academic Qualifications

---

**July 2023 - June 2026**

**Bachelor of Commerce**

Majors: Econometric and Business Analytics  
Monash University, Clayton Campus

**February 2017 - December 2022**

**High School (ATAR of 86.3)**

Subjects: English, Business, Economics,  
Math Extension 1, Math Extension 2, Biology  
Australian International School, Malaysia

## Projects

---

### Olist E-Commerce Business Analysis — SQL

Analysed Olist's Brazilian e-commerce dataset using SQL to extract insights on sales trends, customer behaviour, and delivery performance. Authored a comprehensive business report translating data findings into actionable recommendations for stakeholders.

### Australia Drowning Statistics Visualisation — Tableau

Built interactive Tableau dashboards visualising national drowning incident data across demographics, locations, and time periods to highlight key risk patterns and support public safety awareness.

### COVID-19 Data Cleaning & Visualisation — SQL & Tableau

Cleaned and processed raw COVID-19 case data (handling missing values, inconsistent formatting, and duplicate records) before building Tableau visualisations to track infection trends and key metrics over time.

### MIMIC-III ICU Mortality Prediction — R studio

Built and compared logistic regression, decision tree, random forest, gradient boosting, and neural network models in R to predict ICU patient mortality from clinical and diagnosis data. Achieved a top ROC-AUC of 0.937, the strongest model being a tuned random forest. Applied feature engineering (diagnosis encoding, PCA dimensionality reduction) and addressed class imbalance via weighted loss functions.

### Personal Safety in Australia — Data Visualisation

Designed a series of interactive Vega-Lite visualisations exploring national trends in violence and safety across demographics, states, and offence types, using ABS and AIHW data. Built a guided narrative structure connecting seven linked charts, including Sankey and chord diagrams, to communicate complex relational data clearly.

## Employment History

---

**Retail Assistant in Puzzle Planet, Malaysia**

**April 2023 - June 2023**

- Achieved my highest sales record by selling a total of RM4000 worth of puzzles to a single customer.
- Demonstrated adaptability by quickly integrating into new environments, providing assistance at other outlets as needed.
- Capable of providing assistance to customers with a courteous and professional demeanour.

## Extra Curricular Activities

---

### Volunteer

June 2024 - Date

- Member of Monash Student Association
- Helping out with different major school events including orientation week
- Provide administrative support

### Sports House Captain, Australia International School, Malaysia

Feb 2021- Dec 2022

- Led the blue house (consisting of 50 members) at the 2022 Sports Day, Swimming Carnival, Team Building Day & International Day
- Worked alongside 3 other house captains to plan the annual sports day, swimming carnival and team building day and carry out weekly sports event for my team members which honed my teamwork skills and communication skills
- Help to organise various school event including the Valentine's Day activity which raised a total of RM1000 which all donated to the charity event
- Corporate with the year to raised money for our graduation and organised our last assembly together

### Member of MYS Modelled United Nations 2022

- Work as an editor in the Munity team, has produced a total of 9 articles with the team members which develop my teamwork skills and writing skills
- Designing and setting up a website that contains all the information of the modelled United Nations including conference schedule, delegations and student appointment and etc

### Participate in The Duke of Edinburgh's International Award

- Has developed various skills including leadership skills, communication skills, resilience, teamwork and sense of adventure through camping in the wild for 3 days 2 night
- Volunteer and working with Tzu Chi organisation to help those in needs
- Volunteer and work as a junior school teacher in Australia International School, Malaysia

## Technical Skills

---

**Data Tools:** Excel, SQL, Tableau, Vega-Lite, R Studio

**Other Tools:** Canva, Google Workspace, Microsoft Office

## Soft Skills

---

Analytical Thinking • Communication • Team Collaboration • Leadership • Adaptability • Creativity

## Additional Information

---

**Languages:** Fluent in English and Mandarin, Malay (Conversational)

**Achievements:** Duke of Edinburgh Award 2022, Certificate of Achievement in 2018 Mathematical Olympiad, Certificate of Credit in 2018 AMC
